

Extravagance Denied Sharp Exchange in House Over Demand by Opposition For Check on Expenditures

By C. R. BLACKBURN

OTTAWA, March 9.—(CP)—During a heated debate in the House of Commons yesterday Prime Minister Mackenzie King declared he would support demand for an investigation by any member who would make it his own responsibility, any charges of government extravagance.

No One Wants Double-Cross Russia: Wilkie

By ARCH EDDY

Excluded from the House of Commons, Mr. L. L. Wilkie said today that he did not believe there was any American "who wants to double-cross Russia now or in the future" and that the Russians are fully aware of the aid being given by the United States.

The 1940 Republican presidential candidate made the statement as a combined answer to a question by William H. Standley, United States ambassador to Moscow, who said news of American aid to Russia was being kept from the Russian people, and Vice-President Charles McNamara, who said a "satisfactory understanding" should be reached with Russia if another world war is to be avoided.

Wilkie's statement: "One government representative implies we may double-cross the Russians after the war as they are bearing the brunt of the war—and in numbers of casualties that is being true for a long time. We are sending supplies to Russia in quantities as our present way of helping and perhaps we are entitled to no more credit than we are receiving, but naturally the Russians like to see people look upon the lives of the lives of their own young men as more important than materials and supplies."

"The Russians have long to relieve them from pressure by recently opening a canal to the Persian Gulf. They have likewise thought it the best military strategy for the United States to support our military operations. Only history will decide which is right."

"Certainly no final verdict can be arrived at with extended information and propaganda in the hands of each government to convince its people of the wisdom of its course. But in the meantime, to advance in understanding Russia's position and national policy, and to see America's attitude toward the Russians after the war will help to understand the position of the United States and the world."

"I know no one in America who wants to double-cross Russia in the future. I believe none so Russia who is ignorant of the facts we are bringing to the world and by our fighting on other fronts."

Miners Reject Plan For Butte Strike

GLACE BAY, N.S., March 9.—(CP)—Two of the largest United Mine Workers of America locals in Nova Scotia-Patagonia in the Glace Bay area here last night rejected a proposal that negotiations be suspended in 15 days to allow the miners' union to elect a new executive committee.

The proposal was recommended by a conference of delegates from the 12 local units here Sunday. The locals have a combined membership of about 15,000 men.

Local membership of Patagonia and Victoria locals represents about 90 per cent of the mine workers in the Glace Bay area. The Glace Bay local is the largest, with 10,000 members.

Though turning down the strike proposal, the miners' union recommended that a number of the U.M.W. district executives be asked to press the mine owners' request for more food supplies.

Weather

Lightest temperatures during the last 24 hours were: 10 at 10:00 a.m., 12 at 1:00 p.m., 14 at 4:00 p.m., 16 at 7:00 p.m., 18 at 10:00 p.m., 16 at 1:00 a.m., 14 at 4:00 a.m., 12 at 7:00 a.m., 10 at Budget Debate

Civilian Travel Rationing, With Priority for Services Urged House of Commons

OTTAWA, March 8.—(CP)—Rationing of civilian travel on Canadian railways was urged in the House of Commons yesterday by Joseph Harris (Prog. Con., Toronto-Danforth), in a speech prepared for delivery in the budget debate as financial crisis for his party.

Priority in railway travel facilities must be given to those in uniform so they can see their relatives while on leave, Mr. Harris said, in freight train, especially, must be given to essential services and food supplies, with curtailment of the transport of non-essentials.

Although the budget made provision for expenditures on a scale never before known, Mr. Harris said, the Canadian people were entitled to certain achievements.

SEES LITTLE EFFECT
The measures proposed by the government would have little effect in checking the carnival, live and spendthrift tendencies of many of our people who have incomes not previously accustomed to.

Mr. Harris said the government had failed to bring about essential production for war purposes, and that the shifts in output from non-essential to essential industry were not fast enough.

In manpower policies, the Dominion lacked equality of sacrifice and service, and the driving force was missing.

A floor based on a reasonable standard of living and the cost of efficient production should be entered all Canadians, with a ceiling maintained over the economic structure so that monopolies would be controlled and taxed to help maintain the floor.

Price control was necessary but must be adjusted to meet con-

Mr. Harris: "It is necessary that these bills be made. It is not necessary that our expanding revenue should recoup the financial position of the owners of the other \$2,000,000.

Special use of new liquor taxes Mr. Harris said the government had reversed its policy on this question.

"The fears that it had that boot-legging would run riot if this was put on now is a problem it will have to deal with," he said.

"I urge the government to give attention to the problem of boot-legging immediately, before it gets out of hand. Carful liquor production by all means, but let the citizens of Canada have their beer, if they want it."

Ordinary expenditures of government should be reduced, said Mr. Harris.

"Paternal legislation for relief and works projects, wheat acreage reduction, and the operations of the wheat board and other government-owned enterprises such as highways and railways, with present revenue, should be reduced to the level of previous years and demand the careful scrutiny of every member of the house of commons," Mr. Harris said.

The committee appointed to study war expenditures had been a "disaster" as far as accomplishing the task which its very name implied.

"The lack of representation of minority groups, the very narrowness of the committee, all tended to restrict the possibilities of the members of the committee doing efficient work on behalf of the country."

PERCENTAGE TOO LOW
Ten per cent. of the house membership was not enough to assume the responsibility of checking the work of the government.

"I say to the members supporting the government that the fulfillment of your service to the country is being lost."

There is a vulgar expression used in ordinary party warfare that those supporting the administration are rubber stamps. Mr.

examination of the votes of the committee on war expenditures must leave that impression.

"I would therefore suggest that the whole system of examining war expenditures be overhauled."

To borrow \$100,000,000, the next victory loan was not enough. If a national income of \$3,000,000,000, the victory loan of \$1,000,000,000, then a national income of \$7,000,000,000 would permit a victory loan of \$2,000,000,000, more than in the past.

Mr. Harris said he warned the government that imprudent spending and carnival living, "rampanant" during this winter, was breaking out with renewed intensity with the advent of spring and the Easter bonnet, and that the citizens are subdued by the events overseas. Inflation would mean financial chaos.

Because primary producers major expenses came in the spring, there should be provision to permit them to subscribe to victory loans in the spring and pledge payment with the harvest.

INTERNATIONAL MEASURES
In accordance with the Atlantic Charter, Canada should be taking up effective international measures to make the world's resources available for the sustenance of human needs. A foreign trade advisory service was needed in the spring, with men trained in foreign selling sent first to the United Nations and later to the countries where they could assist Canadian sales and act as a medium for the purchase of imports.

The maximum market price should be available for hogs of greater weight than at present. The United Kingdom had not an appreciable surplus of fat and probably would not be able to accept heavier weight hogs.

Mr. Harris said he hoped dissatisfaction over beef supplies would be about a policy to do away with the "ranch and dump" of boot-legging, black markets and the "cattle producers." Slaughtering in small establishments and by in-

dividual farmers was never larger in Ontario and the west of by-products in local slaughtering was small.

"Give the livestock producers fair reward for their industry and eliminate any vestige of black market," said Mr. Harris.

JEOPARDIZED INDUSTRY
The new trade agreement should be negotiated with the United States while the war was on. Half a million men would be looking for work in Canada when the war was over and position of industry in Windsor, Ont., and other parts of Canada would not be jeopardized.

"A considerable amount of war plant absenteeism came from high wages and temporary economic security. The remedy was not lower wages but the application of rules to prevent absenteeism. The importance of the full-time co-operation in the war effort."

In the United Kingdom a worker who stayed from his job for one shift was required to give an acceptable reason and otherwise was liable to a fine. If he persisted, he was jailed.

The absentee system in Canada was due largely to the "improved" taxation measures of last year. This taxation had given an excuse to labor to stay away from work. A single employee who worked a full week of 48 hours for \$1.90 an hour had had a net pay of \$28.80 a week, with an income tax liability of \$4.50. If he worked only five days, he paid income tax of \$3.50. If he worked four and a half days he paid tax of \$2.50.

The man would be better off to work the full six days, but one time he was taxed the income tax if he worked six days and the income tax if he worked five days.

"Rather than give to the government the extra \$2.80 in taxation he received, a single employee who worked a full week of 48 hours for \$1.90 an hour had a net pay of \$28.80 a week, with an income tax liability of \$4.50. If he worked only five days, he paid income tax of \$3.50. If he worked four and a half days he paid tax of \$2.50."

ENCOURAGED BY TAXES
The absenteeism is encouraged by the present income tax legislation. The government has increased the rates and spread the tax and you will get more revenue."

Mr. Harris said he could not believe that the government was trying to run the "pay-as-you-go" income tax plan as proposed by the Progressive Conservatives. It was difficult to understand why Finance Minister Hiley had used the basis of 50 per cent. in "forgiving" a portion of the 1942 tax liability.

When clean sweep has not been made to clear up the tax for all time," said Mr. Harris.

"There is imposed an unjustifiable hardship because the minister in his budget has pursued the policy which takes too much cash in settlement of a debt, to be paid in two instalments in 1942 and the taxpayer finds that he must liquidate this indebtedness, and at the same time assume the full obligation for the prompt payment of his 1943 tax."

The intention of the Budget plan, as I understand it, is that the 1942 balance of debt should not be on the government's books, while the Hiley plan has compromised the debt."

If income tax rates had destroyed the incentive to buy government annuities, said Mr. Harris, Canadian who although taking old-age pensions from the state converted his capital assets into an annuity and found he paid the full income tax on capital as invested as well as on that part which he received interest. If he bought Victory bond his capital was returned to him without income tax.

With a change in the organizing, financing and operating methods of co-operatives because of conditions and new market requirements, Mr. Harris said the income tax branch desired to discontinue the exemption from income tax on patronage dividends.

"If this income tax exemption is abolished and confirmed by the court and made retroactive, it will have a disastrous effect on the services of the co-operatives," he said.

In general, Mr. Harris said, the budget was "weak."

It looks like an election budget," he continued.

Former Opera Star Passes in States

NEW YORK, March 9.—Alice Nielsen, 68, former soprano star of the Metropolitan Opera who sang with the late Enrico Caruso, died yesterday at her home here after an illness of several years. She was a native of Nashville, Tenn. Miss Nielsen, who began her public career as a street singer in Kansas City, Mo., when she was only 15 years old, appeared in grand opera in England and Italy and afterwards had many successful engagements in New York, Chicago and Philadelphia opera productions.

In Argentina, January is the coldest month while June and July are the coldest.

HOW TO RELIEVE PILE TORTURE QUICKLY AND EASILY

If you are troubled with piles or rectal soreness, do not drag your body into the risk of infection. Do not condition yourself to chronic pain. Do not suffer the tortures of hemorrhoids, straining, and other ailments. Do not let your condition become chronic. Any treatment should be immediate. Do not let your condition become chronic. Any treatment should be immediate. Do not let your condition become chronic. Any treatment should be immediate.

For this purpose get a package of hemorrhoid ointment from Merrett Drug Co. or any drug store and use as directed. Use 50 cents on all 25 and 36 ounce bottles, and 75 cents on all 40 ounce bottles. These rates apply to all sizes of bottles. Do not let your condition become chronic. Any treatment should be immediate. Do not let your condition become chronic. Any treatment should be immediate.

When you use a free remedy may be had at any drug store.

If you try this hemorrhoid cure and are not satisfied, please send the result. Your drugist will gladly return your money.

Strange sights are seen in Edmonton these days, but the machine, pictured above, is one of the strangest sights pedestrians on Jasper have seen in many months. It is called a "turntable" and is used in highway construction work. The above machine is one of several being sent north by the development company for use on northern development projects.

Regulations forbid individuals sending newspapers overseas. The Edmonton Bulletin prints the news of the week in letter form. This letter covers the period from March 2 to March 8. Clip it out and send it to your loved ones and friends.

Dear

Since we last wrote the Federal budget has brought down at Ottawa and taxpayers know just what they are in for during the next 12 months. Probably the most interesting feature of the new budget is the announcement of the "pay-as-you-go" personal income tax plan, involving no increase in the tax rates imposed last year. Finance Minister Hiley asked for the revised sum of \$3,000,000,000 for the fiscal year starting next April 1. The bulk of that amount, \$15,000,000,000, in compulsory savings will come from the change in income tax collections, which involves writing off 50 per cent. of the tax income in 1942. Although there is no change in rates, higher income tax deductions, the major and other adjustments will bring in more money during the next fiscal year.

The remainder of the increased revenues will be used to pay down the national debt. The current tax on profits, \$2 per 1,000 on corporate taxes, two cents per 100 on cigarette patents, one cent on income on manufacturing income, and the increase of 8 per cent on cigars, one-half cent per ounce on raw cotton, and one cent on wool, all added, except those on servicemen overseas, and which increased from 20 to 25 per cent. in the tax on night-club entertainment.

There were no other tax increases, but several adjustments benefiting men in the armed forces, farmers, and those engaged in searching for new sources for oil, metalliferous and strategic metals.

I know you will be interested in the above summary of the budget, and now I will give you 428 local news highlights for the week.

Tuesday

A resident of Edmonton since 1913 and a former member of the R.C.M.P., Jacob M. Tait, died at his home Monday night. He was 62 years old. Express mailman on Edmonton's street railway system will require extra equipment to handle the traffic during 1943. If the present rate of increase in mail volume is maintained, Street Railway Superintendent Thomas Fether stated Tuesday, as he announced that the city had agreed to purchase the Dominion Transit controller for priority for the supplying of other trrolley cars, gasoline buses or street cars for the system.

More than 50 per cent of the workers in Edmonton's packing plants will seek employment on private property in Edmonton and the north-east during spring unless steps are taken by the Dominion government to take the existing position. J. Van der Packer Plant Employees' Union representative, told members of the Edmonton Trades and Labor Council at a meeting yesterday.

Wednesday

Revenues of the city telephone department, and number of phones in operation during the first two months of 1943, showed a substantial increase over the corresponding period in 1942. Total revenue for the first two months was \$22,465, compared with \$21,428 for the same period of last year. Total number of telephones in operation now is 22,645, against 21,359 for the same period in 1942.

Having already shattered all existing records for traffic in the city's history, the number of passengers carried by Edmonton's street railway system surged to new high marks during the months of January and February. Total passengers carried for the first two months of 1943 were 1,432,201 in excess of the number carried for the same two months of 1942, representing an increase of 62.31 per cent. During January and February of the previous year there were 882,367 passengers carried against 5,382,265 during the same two months of 1942.

If the School Board introduces religious instruction in the city schools it will entail a "pack of dynamite," was the emphatic opinion expressed by D. H. Harty, president of the Edmonton School Board. Harty was further stated that he would fight such a measure "to the last ditch," was opposed a recommendation submitted to the Edmonton School Board by the Rev. S. S. Simpson, that religious instruction be offered one period per week during the last period of the day.

Two games were played in the N.H.L. last night, when the Detroit Red Wings defeated the Chicago Blackhawks 3 to 1. In beating the Red Wings, the Chicago Blackhawks scored all of their goals and again took over leadership in the league, scoring a total of 61 points. He is now on points up on Doug Bentley of Chicago Blackhawks.

Thursday

J. A. King, chairman of the Alberta Labor Control Board, today announced an increase in liquor prices, effective immediately, to bring the prices into line with the federal government's policy announced in the Federal budget. The prices increased were 25 cents on all 12 and 13 ounce bottles, 50 cents on all 25 and 36 ounce bottles, and 75 cents on all 40 ounce bottles. These rates apply to all sizes of bottles. Do not let your condition become chronic. Any treatment should be immediate. Do not let your condition become chronic. Any treatment should be immediate.

Continuing their winning ways, Edmonton Canadians, Alberta Junior hockey champions, captured the first game of the best of three series with the Trail club Saturday night, 3-2 for the Alberta-B.C. final.

Week-end hockey in the N.H.L. following the first game of the best of three series: Toronto 5, Detroit 2; Chicago 2, Detroit 2; Detroit 2, Chicago 2.

Well that's all we have from for this week, so good bye until then. Lots of luck.

**To our boys in
Enemy prisons
THE RED CROSS
MEANS LIFE, HOPE!**

YESTERDAY these young men's laughter rang through our homes. Today they are far away in an enemy prison camp—hungry, homesick, alone.

The one great event in their lives is the arrival of Red Cross food parcels from Canada. Thousands of the parcels, containing nourishing food and a few tasty sweets are packed each week by volunteer Red Cross workers and dispatched to our boys in foreign lands. More than 2,000,000 parcels have been sent up to now—even more than this number must be in 1943. Only Red Cross food parcels can pass enemy frontiers.

Your contribution is vital; for there must be no let-up in this great work. Open your heart and your purse-strings. Give generously to the Red Cross.

Guarding the Bottles

LOS ANGELES, March 9.—(AP)—The police are guarding the bottles of the new wine.

Manitoba House Asks Tribunals For Farm Debts

WINNIEP, March 9.—(CP)—The Manitoba House of Commons last night unanimously approved a resolution urging the Dominion government to create special tribunals for the prairie provinces and give them jurisdiction to deal with farm debt problems.

Manitoba House Asks Tribunals For Farm Debts

The resolution followed a private farm debt conference at Saskatoon, Feb. 27, at which government officials and farm organization representatives agreed to send a delegation to Ottawa March 13 to confer with the federal government officials on possible debt legislation.

Manitoba House Asks Tribunals For Farm Debts

The private farm debt conference drafted a bill outlining proposed debt adjustment legislation. The bill was stated to be accepted by the Manitoba House of Commons.

Manitoba House Asks Tribunals For Farm Debts

Earlier the Alberta Debt Adjustment Act was found to be ultra vires by the Privy Council. Mr. Garson, in presenting the resolution, told the House that the bill was drafted by the Manitoba House of Commons.

Manitoba House Asks Tribunals For Farm Debts

He said that only by special legislation of the Dominion will it be possible to have a debt adjustment machinery they seek for farm debt adjustment.

Manitoba House Asks Tribunals For Farm Debts

The premier said the Manitoba Debt Adjustment Act still holds the powers of the province, adding that a test case has already been heard in the courts.

Manitoba House Asks Tribunals For Farm Debts

Mr. Garson said the private debt conference had decided that the Manitoba House of Commons should have tribunals set up that would have jurisdiction to deal with farm debt problems.

Manitoba House Asks Tribunals For Farm Debts

He said that the estimates would be ready for submission to the council at its next regular meeting on Monday, March 22, after which a series of special meetings would be held until the estimates were approved and the debt adjustment machinery was set up.

Engaging Local Workers By U.S. Firms

American contractors engaged on war projects in Edmonton and the northland have been barred from employing Canadians, either men or women, on these projects under an order issued Monday through the local unemployment commission it was located Tuesday.

Confirmation of the ban came from American authorities. They said that Canadians already employed could be continued in their employment.

Several hundred Edmonton citizens are now employed by American contractors, and it is known that a considerable force of men and women from all sections of the province provinces also are employed on the different American war projects. On some of the projects jobs have come from eastern Canada.

An American executive stated Tuesday that Canadians have been engaged on projects through the channels provided by the unemployment insurance commission. He said that with this restriction the supply unavailable it would be necessary to bring additional staff from the United States.

He said that Canadians had been employed on these projects because of the shortage of labour that existed in Edmonton. This situation rapidly is being overcome, and housing accommodation is being created to take care of staffs brought from the United States.

Projects were made recently through the Edmonton Chamber of Commerce to the Ontario Government, the depletion of industrial staff through hiring of local labor on the projects.

Reg. T. Rose, executive secretary of the Chamber of Commerce, said that the Ontario Government had ordered the hiring of local labor on the projects. He said that the Ontario Government had not received authentic information on the subject.

Last week members of the Chamber of Commerce held a two-day conference with the Ontario Government. The Ontario Government representative of the national service, Mr. W. H. Miller, said that the Ontario Government had not received authentic information on the subject.

Miller said that the Ontario Government had not received authentic information on the subject. He said that the Ontario Government had not received authentic information on the subject.

"I do what you would surely do...if you were there"

Wherever war with its black woes
Or flood, or fire, or famine goes
There, too, go I!

Wherever strength and skill can bring
Surcease to human suffering
There, too, am I!

I go wherever men may dare,
I go wherever woman's care
And love can live —

If earth in any quarter quakes
Or pestilence its ravage makes
My help I give.

The cross which on my arm I wear,
The flag which o'er my breast I bear,
Are but the sign;

I am the ambassador for you
I do what you would surely do
If you were there!

Whenever and wherever disaster overtakes humanity... there goes the Red Cross, caring for the injured, comforting the afflicted, feeding the hungry, sheltering the homeless. Ambassadors for you — to be sent on your errands of mercy — they do your will. Give generously to them that they may give generously to all who suffer — enabling the light of hope to shine again.
